

FAIRFAX COUNTY POLICE DEPARTMENT

ACTIVITY REPORT

MAY 21, 2010

ACTIVITIES REPORTED THROUGH MAY 19, 2010

PUBLIC INFORMATION OFFICE -- 703-246-2253

There are three sections in this report: Section I: MAJOR INCIDENTS; Section II: PROPERTY CRIMES; and, Section III: ANIMAL RELATED INCIDENTS. Sections are appropriately identified. Within the sections, incidents are organized by station, then by type of offense. They are listed alphabetically by street address.

Addresses shown indicate blocks and not specific locations. Thus an entry showing Chain Bridge Road 4100 would mean the 4100 *block* of Chain Bridge Road, not the address 4100 Chain Bridge Road.

An asterisk (*) before an item indicates that a news release was distributed on that offense.

Experts from the police department, the Commonwealth Attorney's Office, George Mason University, and the Inova Fairfax Hospital trauma unit will be among the panelists sharing their first-hand knowledge and information on these difficult topics. ANIMAL CONTROL DIVISION

***DOG BITE PREVENTION WEEK:** In 2009, Fairfax County Animal Control Officers responded to 946 reports of dog bites; in 2008, there were 890. While many of these bites were not considered severe, some of them were. In recognition of National Dog Bite Prevention Week, officers urge residents to keep dogs leashed every time you take them for a walk, maintain up-to-date rabies vaccinations and learn what you can do to prevent dog bites. The Fairfax County Police Department encourages dog owners, and residents alike, to learn what they can do to make dog bites less likely and to help prevent dog bites. According to the U.S. Centers for Disease Control (CDC) 4.5 million Americans are bitten by dogs each year, and one in five dog bites results in injuries that require medical attention. Most at risk of dog bites are children. Most injuries occur among children between the ages of 5 to 9 years. Adult males and people with dogs in their homes are also more likely to become victims. Prevention tips include:

- Consult with a professional, such as a veterinarian or breeder to learn what type of breed best fits your household and lifestyle.
- Spend time with a dog before buying or adopting it.
- Use caution when bringing any dog into a home with a baby, toddler, or young child.
- Make sure your children do not approach unfamiliar dogs.
- Avoid direct eye contact with a dog.
- Allow a dog to see and sniff you prior to attempting to pet it.
- Do not disturb a dog that is sleeping, eating or caring for puppies.

To learn more about these tips, and other helpful prevention information, visit www.cdc.gov.
